INSTRUCTIONS

1 TITLE AND CODING

- a) For papers, the code number, plus the name of the Theme Session, should be inserted at the top right hand corner of the title page. For example: CM 2001/H:01.
- b) Papers/posters may bear the statement "Not to be cited without prior reference to the author". If chosen, the statement should be inserted at the top of the title page.

2 GUIDELINES FOR THE PRESENTATION OF PAPERS

- a) **State the purpose/objectives of the Paper, the main concepts and results, and the conclusions. Avoid going into detail. Do not read your Paper, but instead talk to the audience. Be considerate of the fact that most members of the audience have a mother tongue other than English.**
- b) Effective communication of your Paper in the short time allotted (sometimes only about 10 minutes) may require the use of a few visual aids (slides, overheads, or PC projectors). Allow a minimum of 1 minute per slide/overhead, preferably 2-3 minutes.
- c) Ensure that your visual aids can be viewed clearly from a distance of at least 20 m.
- d) Slide and overhead projectors are provided. If you require a PC projector, please reserve this by contacting gorel@ices.dk.

3 GUIDELINES FOR THE PRESENTATION OF POSTERS

Posters at the 2001 ICES Annual Science Conference will be displayed on poster boards near the conference area.

The dimensions of each Poster should not exceed 120 cm width x 120 cm height, including border. Fittings will be provided.

- a) It is essential that written text, graphs, and other illustrative material used in the Poster are large and bold enough to be read at a distance of at least 2 metres. For this to be possible, the lettering of the written text, labels for graphs and tables, etc., should not be smaller than 4-5 mm.
- b) The title, code number, and author(s) of the Poster should be prominently displayed.
- c) There will be a Poster Session on Thursday 28 September where authors will be asked to be present.
- d) Authors are encouraged to include a personal photograph on their Poster to facilitate their recognition by those viewing the Posters.
- e) Presenters of Posters wishing to prepare a short paper describing their Poster should provide the ICES Secretariat with a copy before 15 August 2001 and the paper will be included on the Conference CD-ROM.
- f) **Do not overcrowd your Poster as you may discourage your potential audience.**

4 COPIES OF PAPERS AND POSTERS

Please note that authors should **not** provide multiple copies of papers for distribution to conference participants. This is because all contributions will be included on a CD-ROM, which will be provided to all registered participants. In order to permit timely production of the CD-ROM, please:

- a) Provide ICES Secretariat with an electronic copy of your paper or poster **by 15 August 2001**. This may be by email attachment or PC Diskette and must be in Word 2000 or less (Windows version) and/or Adobe Acrobat pdf-format.
- b) If you are unable to provide your paper/poster as above then you may submit a hard copy version **by 1 August 2001**. This will be scanned and included in the CD-ROM.
- c) If you fail to meet the above deadlines, please provide your paper/poster as soon as conveniently possible, but **not later than January 2002**. These will be included in the final version of the CD-ROM to be produced in early 2002.
