

TUESDAY 20		OPENING SESSION General Assembly – Open Lecture Keith Sainsbury: “The Ecosystem Approach to Fisheries”			
0900	ORR HALL	BOYD HALL	GORDON A	GORDON B	FLEMING AUDITORIUM
1100	COFFEE				
1130	Posters	BB Ecosystem Approach to Fisheries Management: Worked Examples	S Oil Spills in Marine Ecosystems: Impacts and Remediation	T Integrating/Implicating Genetics into Fisheries Management	U Acoustic Techniques for Three-dimensional Characterization and Classification of the Pelagic Ecosystem
1230	LUNCH				
1330	Posters	BB Ecosystem Approach... continued	S Oil Spills... continued	T Integrating/Implicating... continued	U Acoustic Techniques... continued
1530	COFFEE				
1600	Posters	BB Ecosystem Approach... continued	S Oil Spills... continued	W Rebuilding Programmes for Threatened Fish Populations	U Acoustic Techniques... continued
1800					
WEDNESDAY 21					
0900	Posters	W Rebuilding Programmes for Threatened Fish Populations	S Oil Spills in Marine Ecosystems: Impacts and Remediation	Q Advances in Reproductive Biology: Methodology and Applications for Fisheries Science	U Acoustic Techniques for Three-dimensional Characterization and Classification of the Pelagic Ecosystem
1000	COFFEE				
1030	Posters	W Rebuilding Programmes for Threatened... continued	Y An Interactive Forum with the Fishing Industry	Q Advances in Reproductive ... continued	U Acoustic Techniques... continued
1230	LUNCH				
1330	Posters	O Connecting Physical-Biological Interactions to Recruitment Variability, Ecosystem Dynamics, and the Management of Exploited Stocks	Y An Interactive Forum... continued	Q Advances in Reproductive ... continued	V Fishers' Perceptions and Responses in Management Implementation
1530	COFFEE				
1600	Posters	O Connecting Physical-Biological... continued	Y An Interactive Forum... continued	Q Advances in Reproductive ... continued	V Fishers' Perceptions... continued
1800					
18.00 – 20.00: POSTER SESSION					

THURSDAY 22		PLENARY SESSION – INVITED LECTURES 09.00 Sean Pascoe: “Anticipating Fisher Response to Management: Can Economics Help?” 10.00 Joe Borg, European Commissioner for Fisheries and Maritime Affairs: “New Initiatives and Challenges in Fisheries Management”			
1030	COFFEE				
1100	Posters	O Connecting Physical-Biological Interactions to Recruitment Variability, Ecosystem Dynamics, and the Management of Exploited Stocks	R Marine Mammals: Monitoring Techniques, Abundance Estimation, and Interactions with Fisheries	L The Spatial Dimension of Ecosystem Structure and Dynamics	V Fishers' Perceptions and Responses in Management Implementation
1230	LUNCH				
1330	Posters	O Connecting Physical-Biological... continued	R Marine Mammals: Monitoring... continued	L The Spatial Dimension... continued	V Fishers' Perceptions... continued
1530	COFFEE				
1600	Posters	O Connecting Physical-Biological... continued	R Marine Mammals: Monitoring... continued	L The Spatial Dimension... continued	V Fishers' Perceptions... continued
1800					

FRIDAY 23		PLENARY SESSION – INVITED LECTURE Graham Shimmield: “Climate Change and Human Impacts on the Marine Environment and Ecosystems of the Arctic Seas”			
1000	COFFEE				
1030	Posters	AA Cod in a Changing Climate	X Mitigation Methods for Reduction of Marine Mammal and Sea Turtle Bycatch in Fisheries	L The Spatial Dimension of Ecosystem Structure and Dynamics	Z How to Improve Environmental Monitoring and Biological Studies – Integrating Ecology and Statistics
1230	LUNCH				
1330	Posters	AA Cod in a Changing Climate continued	X Mitigation Methods for... continued	O Connecting Physical-Biological Interactions to Recruitment Variability, Ecosystem Dynamics, and the Management of Exploited Stocks	Z How to Improve Environmental... continued
1530	COFFEE				
1600	Posters	AA Cod in a Changing Climate continued	X Mitigation Methods for... continued	M Impact of External Forcing on Flows in Marine Trophic Networks	N Elasmobranch Fisheries Science
1800					

SATURDAY 24		Closing session			
0900	Posters	P Regional Ecosystem Pilot Projects, Ecosystem Forecasting, and Operational Oceanography: Comparing and Contrasting Scientific Tools, Strategies, Outputs, and Applications	K Multidisciplinary Approaches to the Identification of Stock Structure of Small Pelagics: Implications for Assessment and Sustainable Management	M Impact of External Forcing on Flows in Marine Trophic Networks	N Elasmobranch Fisheries ... continued
1030	COFFEE				
1100	Posters	P Regional Ecosystem Pilot Projects... continued	K Multidisciplinary Approaches... continued	M Impact of External Forcing on Flows... continued	N Elasmobranch Fisheries... continued
1230	LUNCH				
1330	Posters	P Regional Ecosystem Pilot Projects, Ecosystem... continued	K Multidisciplinary Approaches... continued	M Impact of External Forcing on Flows... continued	N Elasmobranch Fisheries ... continued
1630	COFFEE				
1700					
1730
