

Monday 17 September										
Start	End	Foyer	Europaea	Fennia I	Fennia II	Nordia	Nautica	Baltica	Press Room	Selim Room Scandic Grand Marina Hotel
8:30	10:00	Registration, exhibitors, posters	Living Resources Committee	Fisheries Technology Committee	Oceanography Committee	Resource Management Committee	Marine Habitat Committee	Diadromous Fish Committee	Baltic Committee	Mariculture Committee
10:00	10:15	Coffee break								
10:15	12:00	Registration, exhibitors, posters	Living Resources Committee	Fisheries Technology Committee	Oceanography Committee	Resource Management Committee	Marine Habitat Committee	Diadromous Fish Committee	Baltic Committee	Mariculture Committee
12:00	13:00	Lunch break								
13:00	15:00	Registration, exhibitors, posters	Opening Session and Open Lecture on "The role of science in the management of environmental problems of the Baltic Sea" by Prof. Erik Bonsdorff, Finland							
15:00	15:30	Coffee break								
15:30	18:00	Registration, exhibitors, posters	Developing the ecosystem approach to the management of human activities for the Baltic Sea (C)	Increasing energy costs and impact on fishers activities and economics - another challenge for fishers and managers (M)	Science underpinning stock abundance survey practice, including unaccounted fishing mortality, especially ghost fishing (Q)	Zooplankton community structure and biomass in the mesopelagic and deeper layers (F)				
Opening night reception										

Tuesday 18 September

Start	End	Foyer	Europaea	Fennia I	Fennia II	Nordia	Nautica	Baltica	Press Room	Selim Room Grand Marina Hotel
8:30	9:30	Registration, exhibitors, posters	Plenary Lecture on "Bycatch mitigation: tales of success and failure across ecosystems – technologies and cultures" by Dr Ed Melvin, USA							
9:30	10:00	Coffee break								
10:00	12:30	Registration, exhibitors, posters	Developing the ecosystem approach to the management (cont.) (C)	Linking oceanographic physical features with biological production and fish habitat potentials (G)	Monkfish across the world: common problems and common solutions (K)	Structure and dynamics of the benthos in ICES waters (A)				
12:30	13:30	Lunch break								
13:30	15:00	Registration, exhibitors, posters	Developing the ecosystem approach to the management (cont.) (C)	Linking oceanographic physical features with biological production (cont.) (G)	Monkfish across the world: common problems and common solutions (K)	Structure and dynamics of the benthos in ICES waters (A)				
15:00	15:30	Coffee break								
15:30	18:00	Registration, exhibitors, posters	Effects of environmental changes on the biology, physiology, and behaviour of pelagic fish (H)	Linking oceanographic physical features with biological production (cont.) (G)	Monkfish across the world: common problems and common solutions (K)	Structure and dynamics of the benthos in ICES waters (A)				

Wednesday 19 September										
Start	End	Foyer	Europaea	Fennia I	Fennia II	Nordia	Nautica	Baltica	Press Room	Selim Room Scandic Grand Marina Hotel
8:30	10:30	Registration, exhibitors, posters	Comparative marine ecosystem structure and function: Descriptors and characteristics (D)	Applications of passive sampling devices in environmental monitoring, assessment, research, and testing (J)	Science underpinning stock abundance survey practice (cont.) (Q)	Marine biodiversity: A fish and fisheries perspective (E)			Bureau Meeting (Closed meeting for members only)	
10:30	11:00	Coffee break								
11:00	13:00	Registration, exhibitors, posters	Comparative marine ecosystem structure and function: Descriptors and characteristics (D)	Applications of passive sampling devices in environmental monitoring, assessment, research, and testing (J)	Science underpinning stock abundance survey practice (cont.) (Q)	Marine biodiversity: A fish and fisheries perspective (E)			Delegates Meeting (Closed meeting for members only)	
13:00	14:00	Lunch break								
14:00	15:30	Registration, exhibitors, posters	Living Resources Committee	Fisheries Technology Committee	Oceanography Committee	Resource Management Committee	Marine Habitat Committee	Diadromous Fish Committee	Baltic Committee	Mariculture Committee
15:30	16:00	Coffee break								
16:00	18:00	Registration, exhibitors, posters	Joint Living Resources Committee and Resource Management Committees	Fisheries Technology Committee	Oceanography Committee		Marine Habitat Committee	Diadromous Fish Committee	Baltic Committee	Mariculture Committee
18:00	20:00	Poster Session								

Thursday 20 September										
Start	End	Foyer	Europaea	Fennia I	Fennia II	Nordia	Nautica	Baltica	Press Room	Selim Room Scandic Grand Marina Hotel
8:30	9:30	Registration, exhibitors, posters	Plenary Session on "The ecosystem approach to fisheries: from reductionism to complexity... and back" by Dr Serge Garcia, Italy							
9:30	10:00	Coffee break								
10:00	12:30	Registration, exhibitors, posters	Comparative marine ecosystem structure and function: Descriptors and characteristics (D)	Flying outside the ICES Assessment WG paradigm - Alternative approaches to providing fisheries management advice (O)	Integrating observations and models to improve predictions of ecosystem response to physical variability (B)	Marine biodiversity: A fish and fisheries perspective (E)		ACE (Closed meeting for members only)	Delegates Meeting (Closed meeting for members only)	
12:30	13:30	Lunch break								
13:30	15:30		The ecosystem approach: what's the impact on marine science, science-based advice and management of marine ecosystems (R)	Flying outside the ICES Assessment WG paradigm (cont.) (O)	Integrating observations and models to improve predictions of ecosystem response (cont.) (B)	Marine biodiversity: A fish and fisheries perspective (E)		ACME (Closed meeting for members only)		
15:30	16:00	Coffee break								
16:00	18:00	Registration, exhibitors, posters	The ecosystem approach: what's the impact (cont.) (R)	Flying outside the ICES Assessment WG paradigm (cont.) (O)	Integrating observations and models to improve predictions of ecosystem response (cont.) (B)	Effects of hazardous substances on ecosystem health in coastal and brackish-water ecosystems: present research, monitoring strategies and future requirements (I)				

Friday 21 September

Start	End	Foyer	Europaea	Fennia I	Fennia II	Nordia	Nautica	Baltica	Press Room		
8:30	9:30	Registration, exhibitors, posters	The ecosystem approach: what's the impact (cont.) (R)	Flying outside the ICES Assessment WG paradigm (cont.) (O)	Stock identification – applications for aquaculture and fisheries management (L)	Effects of hazardous substances on ecosystem (cont.) (I)					
9:30	10:00	Coffee break									
10:00	13:00	Registration, exhibitors, posters	External independent peer reviewing – achievements and failures (P)	Flying outside the ICES Assessment WG paradigm (cont.) (O)	Stock identification – applications (cont.) (L)	Effects of hazardous substances on ecosystem (cont.) (I)					
13:00	13:30		Closing Session								
14:00							ACFM (Closed meeting for members only)	Publications Committee (Closed meeting for members only)
