

**DO YOU HAVE
SOMETHING
TO SAY?**

You did your research and you have interesting findings. You want to share your knowledge with your peer researchers. Or you want to deliver your findings as advice to managers. Or you want to communicate your message to stakeholders. In each case, it is your job to convince your audience that it is worthwhile for them to listen to what you have to say and to make it easy to understand your message clearly. Therefore it is not only important to consider the contents of your message, but

**IMPROVE YOUR
SKILLS GETTING IT
ACROSS**

Join the 2-hour interactive early-evening session S at the 2009 ICES ASC in Berlin:

Presenting scientific and advisory results: best practices

Program

Presentations (on presenting...) will be interlaced with examples from video clips illustrating DOs and DON'Ts. Ample opportunity for discussion and YOUR comments on what is shown.

What we are looking for

Speakers from the ICES community who would like to share how they approach presentations (note that this presentation itself will be commented upon during the program ☺). Please submit a short outline for a presentation of no more than 5 minutes.
