

«A Fantastic World Inspired by Jules Verne»

Conference Dinner - Thursday 23rd September 2010

19:30 - 23:00

Price per person: 40€ incl. tax
The number of places is limited.

The **Machine de l'Île** is exceptionally situated at the site of the former shipyards featuring a blend of the invented world as inspired by Jules Verne and the mechanical universe of Leonardo da Vinci.

The Great Elephant, the Marine Worlds and the Heron Tree are urban sculptures open to the public. Like doors opening to a world of dreams and magical journeys, they give to this island a feeling of mystery, reminiscent of the time when three-masted vessels set sail to travel around the world.

During your Gallery visit, the machinists will explain the history and how to operate these strange creatures. You can manipulate the controls of these deep sea creatures that populate the Oceans.

For more information: www.lesmachines-nantes.fr/

A **buffet** with gourmet tastes from all over the world will be served and a **music group** will entertain during the evening.
