

WGAMEEL

Working Group on American Eel

Fisheries Resources
Steering Group (FRSG)

RESEARCH FOCUS

- Foster collaboration between Canada and the United States for this panmictic species
- Sharing and evaluating data on American eel from surveys and commercial fisheries:
 - abundance
 - distribution
 - habitat
 - biology
- Assembling information on spatial population structure of American eel

OUR CHAIRS

Thomas Pratt

Kristen Anstead

OUR OBJECTIVES

- Compare and contrast modelling approaches used for European and American eels and identify data needs for these approaches.
- Identify potential stock assessment methods and management approaches that would be appropriate to use for fishery management and conservation needs.

OUR EXPERTISE

Our expert group consists of representatives from federal, state, provincial, and indigenous groups that collectively have hundreds of years of expertise working on American eel conservation and fisheries issues.
