

Join the

Poster Game

All work and no play makes a dull conference... so... during this year's ASC we will feature a game around the scientific posters.

What?

The game is played on your phone. It will lead you to some of the posters, where you will need to solve different quests.

When?

You can play the game throughout the conference, starting on Monday at midday and ending on Thursday at lunchtime.

You can play at your own speed and pause the game at any time. It takes about an hour in total to complete the game.

This sounds freakin' amazing! How do I play?

- 1) Download the TotoRun app from your App or Play store.
- 2) Use the „Just Try“ option (no need to register).
- 3) Select „Start new game“, which will open a QR scanner automatically.
- 4) Scan the „Start“ QR code

Awesome QR code

"It's been a hard day's night,
and I been working like a cat"
