

## **ICES Science on Ecosystem Functions**

Chair: Graham Pierce (UK)

Harpa Conference Centre, Silfurberg B

### **Agenda**

**Monday, 23 September 2013, 10:30–12:00**

The expert groups associated with SSGEF will meet to present highlights of their work during the last year and to discuss options for future collaboration to provide added value. Discussions will be structured around topical themes related to ecosystem function and the aim is to develop these into an action plan with deliverables which can form the basis of the terms of reference for SSGEF. In addition, there will be a short discussion on future ICES Science needs in relation to ecosystem function.

- |   |              |
|---|--------------|
| 1) Opening, review of agenda, appointment of rapporteurs  | 10:30        |
| 2) Short presentations on High Priority Issues and Highlights by EG Chairs  | 10:35        |
| 2.1) WKSICCME-Spatial highlights (presented by Myron Peck)  |              |
| 2.2) WGPME highlights (presented by Xosé Anxelu G. Morán)   |              |
| 2.3) WGCEPH highlights (Presented by Marina Santurtún)  |              |
| 2.4) Others to be confirmed   |              |
| 3) Discussion of synergies between EGs: (information sharing, enhancing outputs, strategic approaches to common question, etc.) | 11:00        |
| 4) Discussion of the new Science Plan   | 11:20        |
| <b>Closing</b>  | <b>12:00</b> |
