

Papers submitted to the  
Shellfish Committee

- No. 5 P. F. Meyer-Waarden "Note on a fattening experiment with Portuguese oysters in the Wadden Sea near Wyk Island".
- No. 6 P. F. Meyer-Waarden & K. Tiews "Catch composition of the German shrimp fishery in 1962".
- No. 7 K. Tiews "On the use of plastic tags for tagging brown shrimps (Crangon vulgaris Fabr.)".
- No. 8 H. Kühn & H. Mann "On the distribution of shrimp larvae (Crangon vulgaris L.) in the estuary of the Elbe".
- No. 19 G. D. Waugh "Observations on the settlement of Ostrea edulis on differentially prepared grounds".
- No. 20 B. T. Hepper "Carapace and total length measurement of Palinurus vulgaris".
- No. 21 N. Reynolds "Some observations on mussel settlement at Conway".
- No. 22 N. Reynolds "The die-away of E.coli in sea-water".
- No. 23 D. A. Hancock "Growth and mesh selection in the edible cockle (Cardium edule)".
- No. 24 P. C. Wood "The sanitary control of molluscan shellfish. Some observations on existing methods and their possible improvement".
- No. 25 P. C. Wood "Blood disease in lobsters (Gaffkaemia). Results of investigations made in 1962/63".
- No. 42 B. T. Hepper "The fishery for crawfish Palinurus vulgaris Latr. in Cornwall".
- No. 43 Maria José de Figueiredo "Note sur la composition des stocks de langoustines (Nephrops norvegicus L.) de la côte portugaise en 1959/1963".
- No. 44 L. Marteil & G. Paulmier "Sur la présence d'Hexamita chez O.edulis et d'autres animaux marins pendant l'hiver 1962-63".
- No. 45 P. Trochon & J. Moreau "Contribution à l'étude de la croissance de l'huître plate O.edulis L. en claire".
- No. 46 J. Le Dantec "Note préliminaire sur les variations de la croissance et de l'index de condition observés sur des lots d'huîtres (Crassostrea angulata Lmk.) d'origine, d'âge, de dimension et de poids connus, en deux stations du Bassin d'Arcachon".
- No. 47 R. Rimbault "Note sur la croissance d'huîtres atlantiques élevées dans les étangs méditerranéens".
- No. 48 Cl. Maurin "Les crevettes capturées par la 'Thalassa' au large des côtes du Rio de Oro et de Mauritanie. Ecologie et pêche".
- No. 80 P. Korringa "Polydora ciliata as pest in mussel-farming".
- No. 81 P. Korringa "Winter inflicts a deadly blow to the Dutch oyster industry".
- No. 90 M. J. Figueiredo "Contribution pour la connaissance de la reproduction de Nephrops norvegicus (L.)".
- No. 100 A. C. Drinkwaard "High vernal phytoplankton-outburst, a co-phenomenon of the winter mortality among Oosterschelde-oysters in 1963".
- No. 103 P. F. Meyer-Waarden "The infection of Mytilus edulis with Mytilicola intestinalis in the German Wadden Sea from 1958-1963".
- Attention: H. Bohl "Further investigations on the selectivity of beam trawls in the German shrimp fishery".  
No. 55/Comp.  
Fishing Cttee.
