</table>
16. Results from the Norwegian acoustic Lofoten-survey, 17 March-06 April 2006
   Berg, E.

   Alpoim, R., Vargas, J. and Santos E.

18. Oceanographic conditions in the Barents sea and adjacent waters in 2005 and a water temperature forecast for 2006-2007
   Pedchenko, A. and Karsakov A.

19. New combination of maturity observations of cod in the Lofoten survey and Barents Sea winter survey
   Aglen, A.

20. Cod Consume Capelin
   Johannesen, E., Johansen, G. O., Bogstad, B., Mehl, S., Tjelmeland, S. and Dolgov, A.

21. Revised indices of the Northeast Arctic cod abundance according to the data from Russian trawl-acoustic survey (TAS) for bottom fish species
   Golovanov, S.E., Yaragina, N.A. and Sokolov, A.M

22. Preliminary results of the Russian survey of Greenland halibut in the Barents Sea and adjacent waters in 2005
   Smirnov, O.V.

23. Results from the Barents Sea demersal fish survey 11 February – 16 March 2006
   Anon.

24. Simulating missing catches using a Gadget model
   Subbey, S. and Howell, D.

25. Aspects of estimating yearclass strength
   Korsbrekke, K.

26. Greenland Halibut Gadget Model outline
   Howell, D.

27. Specificity of the Russian fishery for the Northeast Arctic cod on the example of the year 2005
   Lepesevich Yu.M., Gusev E.V.

28. Consumption of various prey species by cod in 1984-2005
   Dolgov, A.

29. Food composition and consumption by the most abundant fish species in the Barents Sea
   Dolgov, A.
