

# WGQuality

## Working Group on the Governance of Quality Management of Data and Advice

Data Science and Technology  
Steering Group (DSTSG)

## RESEARCH FOCUS

We support ICES aim of creating an end-to-end quality assurance framework for advice production - from data management, data integration, data analysis, and data use, to the process of translating that data into ICES advice.

## OUR OBJECTIVE

- Analyse existing ICES quality management processes within advice production.
- Specify a fully operational ICES advisory quality management system.
- Operationalize quality tools and processes.

## OUR EXPERTISE

- Fisheries data collection.
- Fisheries-dependent and fisheries-independent data quality.
- Fisheries assessment.
- Data management.
