

Instructions on how to upload files for the IOS2014 Symposium - IMEDEA big file service

Due to usual limitations in size of the e-mail attachments, it is possible to use our web service for this purpose.

Instructions:

Open your internet browser and go to <https://imedea.uib-csic.es/fileupload/>
Fill the form with your data (name, e-mail address) and select the file you want to share.

For security reasons you must type the text that appears in the left image of the form.
Then finally click on the Upload button.
The file will then be uploaded to our server.
When the upload is completed, you will see a link on the screen for downloading the file.
This link will also be sent to you by e-mail.

Now you can send the link to the person you want by mail or any other method.
The link will be available for 30 days. The file will be deleted after this time period.
Your personal information is not stored, it is used temporarily for the e-mail generation only.

This service is under testing. Please, use with discretion and report any problems to informatica@imedea.uib-csic.es
